# Lartap

Lartap is a unique carpet label based in the Netherlands. Lartap stands for innovative design carpets! Each design is different and unique. The designs are inspired by different structures and colours from other nations and cultures. Lartap carpets are a mix from traditional elements mixed with a modern touch . Urban, Ornamental and the Nordic collection create a carpet which looks special and amazing in every room.

- polypropylene -

The popular artificial yarns are made of polypropylene. This type of carpet is stain-resistant, because the color is already created during the manufacturing process. Polypropylene is durable and wear resistant. It is cheaper than other types of carpet making it has a great value. Furthermore, our carpets are made from a twisted yarn frisé effect that even has a better quality and durability and have a beautiful design.

All Lartap carpets are carved and available in the following sizes: 120x80cm, 160x230cm, 200x290cm, 240x340cm, 120x170cm

## NORDIC

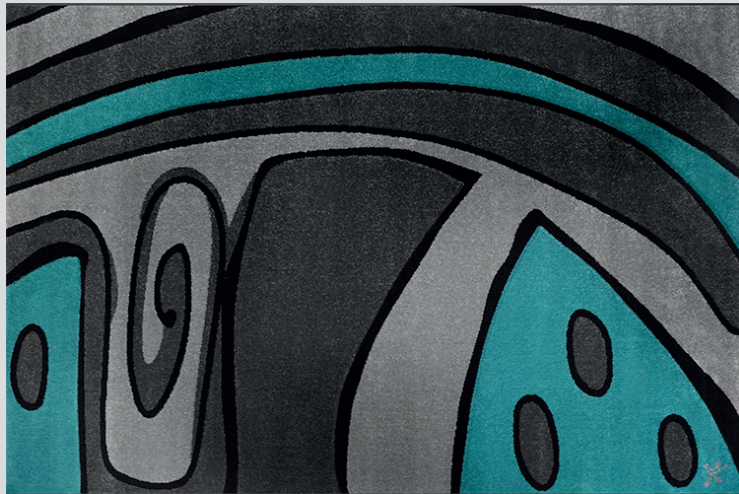

The carpets from this Nordic Collection have a Nordic look with fresh colors. Inspired by countries in the north, we decide to catch the Nordic atmosphere with this collection and mixed it with ornamental shapes. The Nordic carpets with their exclusive and unique designs can be combined with any modern lifestyle. The carpets of the Nordic collection give each room a special look. All carpets from this collection have perfectly finished collars and are made of polypropylene. Vacuuming is simple because of the low pile of 12mm.
